

YOUR #1 CHOICE FOR COMPRESSED GAS CYLINDER COMPONENTS

American Cap Company is the world's leading manufacturer of compressed gas cylinder components. Since 1988, we have provided cylinder caps, collars, flanges, foot rings, lids, neck rings and other components to insure the safety of Industrial, LPG, CNG and Specialized Gas cylinders. We take pride in serving our customers worldwide.

CARRY HANDLES

Custom Sizes Available

PRODUCT USE

Carry handles are used to carry steel cylinders with ease and comfort. The handles provide protection, reduce valve damage, and make transportation easier. The handle is welded to the tank top and used typically on LPG cylinders.

KEY FEATURES:

- Allows easy access to valve
- High strength steel
- Easily placed on cylinder

OPTIONS:

- Can be custom lettered
- Handles are available in variety of sizes
- Available in custom powder coat
