

YOUR #1 CHOICE FOR COMPRESSED GAS CYLINDER COMPONENTS

American Cap Company is the world's leading manufacturer of compressed gas cylinder components. Since 1988, we have provided cylinder caps, collars, flanges, foot rings, lids, neck rings and other components to insure the safety of Industrial, LPG, CNG and Specialized Gas cylinders. We take pride in serving our customers worldwide.

CONSTRUCTION COLLAR

PRODUCT USE

The Construction Collar has been a staple of the construction industry for years. This economical proven design is used at construction sites around the world. The large openings provide the easy access to the valve and valve handle required by construction personnel while providing the safety necessary to protecting the valves from damage in the event of an accident.

KEY FEATURES:

- Allows easy access to the valve
- Wide mouth opening for installing larger valves
- Meets ISO 1117, CSA B340, and DOT 49 CFR standards
- Locks in place with clamp screw
- High strength steel construction

OPTIONS:

- Available in custom powder coated colors
- Standard units are 3-1/8 11 UN and 3-1/2 11 UN
- Also available in a 3-1/8 7 UN and 3-1/2 x 8 UN
