

WE WANT TO BE YOUR #1 CHOICE FOR OCTG COMPONENTS AND ACCESSORIES

American Cap Company is the world's leading manufacturer of compressed gas cylinder components. Since 1979, we have provided cylinder caps, collars, and other components for industrial gas, LP gas and Specialty Gas Cylinders. In recent years, PTR Tool and Plastics has been working to join and build our status in the energy market. We now provide our customers with seamless couplings, thread protectors, and other refinery components.

PLASTIC THREAD PROTECTORS

Custom Sizes Available

PRODUCT USE

Thread protectors are used to assist in minimizing corrosion from moisture intrusion or entrapment. PTR Tool and Plastics' protectors comply with API safety and usage standards.

KEY FEATURES:

- Made to fit both pin and box end
- Strong impact resistance - material and mechanical strength to protect the thread and end of the pipe from damage under handling and storage
- Manufactured to inhibit infiltration of dust and water to the threads during transportation and following stages of the process
- Closed end to protect the inside of the pipe
- Available in hookable/liftable and non-liftable forms
- API 5^{CT} 10th Edition
- 4.5" plus custom sizes available

OPTIONS:

- Custom colors and custom threads for semi-premium and premium connections
- Customer specific labeling
- Shielded thread protectors
- Non-rated thread protectors and Annex I thread protectors available
