## **PTR GROUP ANNOUNCES NEW MOBILE AND TABLET FRIENDLY WEBSITE**

---

May 18, 2021 – Wheatland, PA – PTR Group, a local manufacturer, announces the launch of their new responsive website.

PTR Group is a multi-company business group that is comprised of American Cap Company, LLC, PTR Tool & Plastics, LLC, and ACCI Industries. The new responsive website showcases their valve protection, cylinder component, seamless coupling, and thread protector product lines as well as their expansive service capabilities including fabrication, quality and engineering, plastic injection molding, precision tooling, spare parts and solutions, 3D metal printing, and finishing services.

Their latest website technology allows the PTR Group website to be viewable on all devices, including desktop, tablet, and mobile. The new website was written and designed by their ad agency of record, Cassidy Advertising & Consulting, LLC, located in Canfield, Ohio.

“The site is very user friendly and displays our products and services for all of our businesses on one website with an aesthetic appeal that strongly represents our PTR Group brand,” stated Phil Moroco, Managing Partner of PTR Group.

PTR Group offers customers world-class contract manufacturing of components and subassemblies in metal and plastics comprised of three companies, which include American Cap Company, LLC, PTR Tool & Plastics, LLC, and ACCI Industries. PTR Group is a single-contact source with multiple capabilities to increase customer efficiencies in manufacturing, purchasing and inventory.

PTR Tool & Plastics, LLC is a leading supplier of high-precision thermoplastic injection mold tooling and molded components for the automotive, electronics, aerospace, telecommunications, consumer, and disposable medical supply industries. As a division of PTR Group, American Cap Company, LLC is a global leader in manufacturing compressed gas cylinder accessories and other cylinder components. ACCI Industries is focused on providing long-term, continuous contract manufacturing services for metal components and subassemblies for OEM, industrial, government, and military applications.
